INTRODUCTION

This Solicitation/Recommendation Statement on Schedule 14D-9 (the "Schedule 14D-9") relates to an offer (the "Offer") by Opportunity Investment Fund I, LLC ("OIF") to purchase up to 100,000 shares (the "Shares") of the outstanding common stock, par value \$0.01 per share (the "Common Stock"), of Piedmont Office Realty Trust, Inc., a Maryland corporation (the "Company"), at a price of \$4.60 per Share, less the amount of any dividends declared or made with respect to the Shares between November 16, 2009 and December 18, 2009 or such other date to which the Offer may be extended (the "Offer Price"). **As discussed below, the Board of Directors unanimously recommends that the Company's stockholders reject the Offer and not tender Shares for purchase pursuant to the Offer.**

Item 1. *Subject Company Information*

The Company's name and the address and telephone number of its principal executive offices are as follows:

Piedmont Office Realty Trust, Inc.
11695 Johns Creek Parkway, Suite 350
Johns Creek, Georgia 30097
(770) 418-8800.

The title of the class of equity securities to which this Schedule 14D-9 relates is the Company's Common Stock, of which there were 474,060,916 shares outstanding as of October 31, 2009.

Item 2. *Identity and Background of Filing Person*

The Company is the person filing this Schedule 14D-9. The Company's name, address and business telephone number are set forth in Item 1 above, which information is incorporated herein by reference.

This Schedule 14D-9 relates to the tender offer by OIF pursuant to which OIF has offered to purchase, subject to certain terms and conditions, up to 100,000 outstanding Shares of Common Stock at a cash purchase price of \$4.60 per share, less the amount of any dividends declared or made with respect to the Shares between November 16, 2009 and December 18, 2009 or such other date to which the Offer is extended. The Offer is on the terms and subject to the conditions described in the Tender Offer Statement on Schedule TO filed by OIF with the Securities and Exchange Commission (the "SEC") on November 16, 2009 (together with the exhibits thereto, the "Schedule TO"). Unless the Offer is extended, it will expire on December 18, 2009. The value of the consideration offered, together with all of the terms and conditions applicable to the tender offer, is referred to in this Schedule 14D-9 as the "Offer."

According to OIF's Schedule TO, the business address and telephone number of OIF is 3501 Jamboree Road, Suite 500, Newport Beach, California 92660, (949) 275-2658.

Item 3. *Past Contacts, Transactions, Negotiations and Agreements*

To the knowledge of the Company, as of the date of this Schedule 14D-9, there are no material agreements, arrangements or understandings or any actual or potential conflicts of interest (i) between the Company or its affiliates and OIF and its executive officers, directors or affiliates or (ii) between the Company or its affiliates and the executive officers, directors or affiliates of the Company, except for agreements, arrangements or understandings and actual or potential conflicts of interest discussed in the sections entitled "Executive Compensation," "Certain Relationships and Related Transactions" and "Stock Ownership" in the Definitive Proxy Statement on Schedule 14A dated July 20, 2009 and incorporated herein by reference. The Definitive Proxy Statement on Schedule 14A was previously delivered to all stockholders and is available for free on the SEC's Web site at www.sec.gov.

Item 4. *The Solicitation or Recommendation*

(a) Solicitation or Recommendation.

The Board of Directors thoroughly evaluated and assessed the terms of the Offer together with outside advisors. The Board of Directors has unanimously determined that the Offer is not in the best interests of the stockholders of the Company and recommends that the Company's stockholders reject the Offer and not tender their Shares to OIF pursuant to the Offer.

Accordingly, the Board of Directors unanimously recommends that the Company's stockholders reject the Offer and not tender Shares for purchase pursuant to the Offer.

The Board of Directors acknowledges that each stockholder must evaluate whether to tender its shares to OIF pursuant to the Offer and that an individual stockholder may determine to tender based on, among other things, its individual liquidity needs.

(b) Background.

OIF commenced the Offer on November 16, 2009 at a price of \$4.60 per share, less the amount of any dividends declared or made with respect to the Shares between November 16, 2009 and December 18, 2009 or such other date to which the Offer is extended. OIF included the following disclosure in its Schedule TO filed November 16, 2009: "The Purchasers are making the Offer for investment purposes and with the intention of making a profit from the ownership of the Shares. In establishing the purchase price of \$4.60 per Share, the Purchasers are motivated to establish the lowest price which might be acceptable to Shareholders consistent with the Purchasers' objectives."

The Board of Directors believes that the Offer is an opportunistic attempt to deprive the Company's stockholders who tender shares in the Offer of the potential opportunity to realize the full long-term value of their investment in the Company.

(c) Reasons for the Recommendation.

In reaching the conclusions and in making the recommendation described above, the Board of Directors (1) consulted with the Company's management, as well as the Company's outside advisors; (2) reviewed the terms and conditions of the Offer; (3) considered other information relating to the Company's historical financial performance, portfolio of properties and future opportunities; and (4) evaluated various relevant and material factors in light of the Board of Director's knowledge of the Company's business, financial condition, portfolio of properties and future prospects.

The reasons for the Board of Director's recommendation include, without limitation:

- the Board of Director's belief that, given the timing of the Offer and the Offer Price, the Offer represents an opportunistic attempt to purchase at a low price and make a profit and, as a result, deprive the Company's stockholders who tender shares in the Offer of the potential opportunity to realize the full long-term value of their investment in the Company; however, there can be no assurance as to the actual long term value of the Company's shares as such value is dependent on a number of factors including general economic conditions and the other factors discussed in Item 8 "Additional Information";
- the Board of Director's significant knowledge of the strength of the Company's assets;
- extensive discussions with Morgan Stanley & Co. Incorporated, Robert A. Stanger & Co., and J.P. Morgan Securities Inc., the Company's financial advisors, regarding potential strategies to provide liquidity to our stockholders;
- extensive discussions with Morgan Stanley & Co. Incorporated, Robert A. Stanger & Co., and J.P. Morgan Securities Inc., in their capacities as potential participants in various capital

markets transactions under consideration by the Company, regarding the current status of financial markets both in the U.S. and abroad;

- the fact that the Board of Directors believes the Company's net asset value per share is in excess of the Offer Price. The Company's last estimated net asset value per share determination which was based primarily on (1) the appraisal value of the Company's real estate assets as of December 31, 2008 and (2) consideration of the value of the Company's other assets and liabilities as of December 31, 2008 was \$7.40 and, while current market conditions may have a negative impact on the values of the Company's properties, the Board of Directors believes that the Company's net asset value per share is above \$4.60 per share;
- the fact that OIF will reduce the Offer Price by ordinary dividends paid by the Company and stockholders who tender shares in the Offer will not receive the fourth quarter 2009 dividend declared by the Board of Directors; and
- the fact that the Company remains committed to providing liquidity to its stockholders at the time and in the manner that are in the best interest of the Company and its stockholders.

In furtherance of the Company's commitment to providing liquidity to its stockholders at the time and in the manner that are in the best interest of the Company and its stockholders, the Company's Board of Directors routinely evaluates potential strategies to provide such liquidity. In light of the approaching January 2011 deadline for a liquidation event under the Company's charter and improved conditions in capital markets, the Company is currently undertaking preparations for a potential listing and public offering of the Company's common stock. On November 27, 2009, the Company filed a Registration Statement on Form S-11 relating to a public offering of shares of the Company's common stock concurrently with a listing of shares of the Company's common stock on a national securities exchange. In connection with the listing, the Company intends to effect an amendment to the Company's charter (the "Charter Amendment") that provides for the conversion of each outstanding share of the Company's common stock into:

- 1/12th of a share of the Company's Class A common stock; plus
- 1/12th of a share of the Company's Class B-1 common stock; plus
- 1/12th of a share of the Company's Class B-2 common stock; plus
- 1/12th of a share of the Company's Class B-3 common stock.

Subject to the provisions of the Company's charter, shares of the Company's Class B-1, B-2 and B-3 common stock would convert automatically into shares of the Company's Class A common stock on a one-for-one basis 180 days following the listing, 270 days following the listing and on January 30, 2011, respectively. The Company intends to list the Class A common stock on a national securities exchange. Any Class B shares that have not automatically converted into Class A shares by January 30, 2011 will convert to Class A shares on that date. The Company does not intend to list the Class B common stock on a national securities exchange and does not expect a significant market in the Class B common stock to develop. The Company's Board of Directors believes the Charter Amendment may minimize concentrated sales of the Company's stock at the time of the listing that could depress the trading price of the Company's common stock.

The Board of Directors cannot assure you that it will ultimately determine to proceed with a listing and/or offering instead of pursuing an alternative liquidity strategy, that a listing and/or offering will be consummated, that a listing, if consummated, would provide complete and immediate liquidity for all existing stockholders, or that the price at which the Company's common stock would trade following a listing would be higher than the price being offered by OIF in the Offer.

In view of the number of reasons and complexity of these matters, the Board of Directors did not find it practicable to, nor did it attempt to, quantify, rank or otherwise assign relative weight to the specific reasons considered.

In light of the reasons considered above, the Board of Directors has unanimously determined that the Offer is not in the best interests of the Company's stockholders. **Accordingly, the Board of Directors**

unanimously recommends that the stockholders reject the Offer and not tender their Shares to OIF for purchase pursuant to the Offer. The Board of Directors acknowledges that each stockholder must evaluate whether to tender its shares to OIF pursuant to the Offer and that an individual stockholder may determine to tender based on, among other things, its individual liquidity needs.

(d) Intent to Tender.

As of October 31, 2009, our directors and executive officers as a group beneficially owned an aggregate of 665,426 shares, representing 0.14% of the total number of outstanding shares of common stock. Our directors and executive officers are entitled to participate in the Offer on the same basis as other stockholders; however, all of our directors and executive officers have advised us that they do not intend to tender any of their shares in the Offer (including shares they are deemed to beneficially own). To the best knowledge of the Company, none of the Company's subsidiaries or other affiliates currently intends to tender shares held of record or beneficially by such person for purchase pursuant to the Offer.

Item 5. Person/Assets Retained, Employed, Compensated or Used

Not applicable.

Item 6. Interest in Securities of the Subject Company

Except as described below, during the past 60 days, no transactions with respect to the Common Stock have been effected by the Company or, to the Company's best knowledge, by any of its executive officers, directors, affiliates or subsidiaries. The Company repurchased shares pursuant to its share redemption program at a price of \$7.03 per share as follows:

<u>Date of Transaction</u>	<u>Number of Shares of Common Stock</u>
October 30, 2009	582,757
November 30, 2009	418,264

Item 7. Purposes of the Transaction and Plans or Proposals

The Company has not undertaken and is not engaged in any negotiations in response to the Offer which relate to: (i) a tender offer or other acquisition of the Company's securities by the Company, any of its subsidiaries or any other person; (ii) an extraordinary transaction, such as a merger, reorganization or liquidation involving the Company or any of its subsidiaries; (iii) a purchase, sale or transfer of a material amount of assets of the Company or any of its subsidiaries; or (iv) any material change in the present dividend rate or policy, or indebtedness or capitalization of the Company. Additionally, there is no transaction, board resolution, agreement in principle, or signed contract in response to the Offer which relates to or would result in one or more of the foregoing matters.

Item 8. Additional Information

Certain statements contained in this Schedule 14D-9 other than historical facts may be considered forward-looking statements. Such statements are subject to certain risks and uncertainties, as well as known and unknown risks, which could cause actual results to differ materially from those projected or anticipated. Therefore, such statements are not intended to be a guarantee of the Company's performance in future periods. Such forward-looking statements can generally be identified by the Company's use of forward-looking terminology such as "may," "will," "expect," "intend," "anticipate," "estimate," "believe," "continue" or other similar words. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date this Schedule 14D-9 is filed with the SEC. The Company makes no representation or warranty (express or implied) about the accuracy of any such forward-looking statements contained in this Schedule 14D-9, and the Company does not intend to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Any such forward-looking statements are subject to unknown risks, uncertainties and other factors and are based on a number of assumptions involving judgments with respect to, among other things, future economic,

competitive and market conditions, all of which are difficult or impossible to predict accurately. To the extent that the Company's assumptions differ from actual results, the Company's ability to meet such forward-looking statements, including the Company's ability to generate positive cash flow from operations, provide dividends to stockholders and maintain the value of the Company's real estate properties, may be significantly hindered. Some of the risks and uncertainties, although not all risks and uncertainties, which could cause actual results to differ materially from those presented in certain forward-looking statements are as follows:

- Conditions in the credit and financial markets, availability of financing, interest rates, and other factors, all of which are beyond the Company's control, affect the real estate market and the value of the Company's assets, which consequently affects the value of your investment in the Company and will also affect the Company's ability to complete a listing or other liquidity event;
- As the Company's stock is currently not listed on a national exchange, there is no established public trading market for the Company's stock. Consequently, there is the risk that you may not be able to sell the Company's stock at a time or price acceptable to you;
- If the Charter Amendment is effected in connection with the listing and/or offering of the Company's stock, the Class B shares stockholders receive will not be listed and will not be fully converted into Class A shares until January 30, 2011. In addition, the Company has suspended its share redemption program effective for redemptions subsequent to November 2009 and expects the share redemption program to terminate upon completion of the listing. Accordingly, any Class B shares stockholders receive as a result of the Charter Amendment will likely be substantially illiquid;
- The Company depends on tenants for its revenue, and accordingly, lease terminations and/or tenant defaults, particularly by one of the Company's large, lead tenants, could adversely affect the income produced by the Company's properties, which may harm the Company's operating performance;
- The impact of competition on the Company's efforts to renew existing leases or re-let space on terms similar to existing leases;
- The Company may expend significant capital in our efforts to re-let space following lease expirations or terminations, which may adversely affect the Company's operating results;
- Changes in the economies and other conditions of the office market in general and of the specific markets in which we operate, particularly in Chicago, Washington, D.C., and the New York metropolitan area;
- The \$7.40 estimated net asset value per share is only an estimate, and is based upon a number of assumptions and estimates, which may not be accurate or complete. There were no liquidity discounts applied to this estimated valuation. Further, this should not be viewed as the amount you would receive in the event that the Company were to list its shares in the future, to liquidate the Company's assets and distribute the proceeds from such transaction to the Company's stockholders or to complete a strategic transaction such as a sale of the Company;
- Current market conditions are having a negative impact on the values of existing U.S. office properties. A reduction in the values of the Company's existing properties will cause a reduction in the Company's estimated net asset value calculation which has been done annually. While the Company cannot predict what its estimated net asset value per share may be in the future, given current market conditions, the Company believes the latest estimated net asset value (\$7.40 per share) may be higher than the value of the next estimated net asset value per share which if completed would be determined and announced in 2010;

-
- The Company's growth will partially depend upon future acquisitions of properties, and the Company may not be successful in identifying and consummating suitable acquisitions that meet the Company's investment criteria, which may impede the Company's growth and negatively affect the Company's results of operations;
 - If the Company uses significant cash balances and debt capacity to repurchase shares of the Company's common stock, the Company would have a reduced capacity to acquire additional properties, which could impede the Company's growth;
 - The Company's cash flows from operations depend significantly on market rents and the ability of its tenants to make rental payments. A general economic downturn, such as the one currently occurring, or a downturn in one of the Company's core markets, could adversely influence the Company's lease renewals and market rent rates that would in turn negatively impact the Company's operating cash flows. In the event the economy continues to deteriorate or capital expenditure requirements necessary to maintain the Company's properties increase, the Company may choose to lower the dividend rather than put pressure on its investment grade credit rating or accumulate significant borrowings to meet a dividend level higher than operating cash flow would support;
 - The Company's funds generated from future operations may not be sufficient to cover desired levels of distributions to the Company's stockholders, and the Company's distributions may change from the levels the Company has historically paid;
 - Failure to qualify as a REIT would reduce the Company's net income and cash available for distributions. Even if the Company qualifies as a REIT, the Company may incur certain tax liabilities that would reduce the Company's cash flow and impair the Company's ability to make distributions or to meet the annual distribution requirement for REITs;
 - The Company may not determine to proceed with a listing and offering of the Company's common stock or the listing and/or offering may not be consummated. In addition, the price at which the Company's common stock would trade following a listing may not be higher than the price being offered by OIF in the Offer;
 - The Company depends on key personnel, including, but not limited to, Donald A. Miller, Robert E. Bowers, Laura P. Moon, Raymond L. Owens and Carroll A. Reddic, each of whom would be difficult to replace;
 - Potential environmental liabilities relating to the Company's properties;
 - Changes in asset valuations and related impairment charges; and
 - Provisions of the Company's organizational documents, including a limitation on the number of shares a person may own, and provisions of Maryland law may discourage third parties from pursuing a change of control transaction that could involve a premium price for the Company's common stock or otherwise benefit the Company's stockholders.

In addition to the foregoing, the Company faces certain additional risks as described more fully in the sections entitled "Item 1A. Risk Factors" in the Annual Report on Form 10-K filed by the Company with the SEC on March 13, 2009 and the Quarterly Report on Form 10-Q filed by the Company with the SEC on November 16, 2009 and incorporated herein by reference.

Piedmont Recommends Rejection of Mini-Tender Offer by Opportunity Investment Fund

Atlanta - November 30, 2009 - Piedmont Office Realty Trust, Inc. ("Piedmont") has been notified of an unsolicited "mini-tender offer" by Opportunity Investment Fund I, LLC ("OIF") to purchase up to 100,000 shares of stock of Piedmont at a price of \$4.60 per share. OIF states the \$4.60 per share offer price will be reduced by the amount of any dividends declared or made with respect to the shares between November 16, 2009 and December 18, 2009 or such other date to which the offer is extended. Piedmont is not in any way affiliated with OIF, and believes this offer is not in the best interests of its stockholders. The Board of Directors of Piedmont has carefully evaluated the terms of OIF's offer and unanimously recommends that stockholders reject OIF's offer and not tender their shares.

The Securities and Exchange Commission ("SEC") has issued "Investor Tips" on mini-tender offers, which are available at www.sec.gov/investor/pubs/miniend.htm. Piedmont also encourages financial advisors and broker dealers as well as other market participants to review the SEC's and the New York Stock Exchange's ("NYSE's") recommendations on the dissemination of mini-tender offers. These recommendations are available at www.sec.gov/divisions/marketreg/minienders/sia072401.htm and in the Information Memo Number 01-27, issued by the NYSE on Sept. 28, 2001, which can be found under the "Regulation -- NYSE -- Rules & Interpretations -- Information Memos" tab at www.nyse.com.

Piedmont has filed with the SEC a Schedule 14D-9 providing a detailed response to OIF's offer. Piedmont encourages stockholders to read the Schedule 14D-9 before making a decision regarding the offer. Stockholders may review and obtain copies of the Schedule 14D-9 and all amendments thereto free of charge at the SEC's website at <http://www.sec.gov> and at Piedmont's website at <http://investor.piedmontreit.com/sec.cfm>.

Some of the reasons why Piedmont believes the offer is not in the best interests of its stockholders are as follows:

- Piedmont believes that the offer price is less than the potential long-term value of Piedmont's shares on a going-forward basis;
- OIF has stated that the offer price represents the lowest price that might be acceptable to stockholders consistent with OIF's objectives;
- Given the timing of the offer and the offer price, Piedmont believes that the offer represents an opportunistic attempt to purchase at a low price and make a profit and, as a result, deprive Piedmont's stockholders who tender shares in the offer of the potential opportunity to realize the full long-term value of their investment in Piedmont;
- The Board of Directors believes Piedmont's net asset value per share is in excess of the offer price. Piedmont's last estimated net asset value per share determination which was based primarily on (1) the appraisal value of the Piedmont's real estate assets as of December 31, 2008 and (2) consideration of the value of Piedmont's other assets and liabilities as of December 31, 2008 was \$7.40 and, while current market conditions may have a negative impact on the values of Piedmont's properties, the Board of Directors believes that the Company's net asset value per share is above \$4.60 per share;
- OIF will reduce the offer price by ordinary dividends paid by Piedmont, and stockholders who tender shares in the offer will not receive the fourth quarter 2009 dividend declared by the Board of Directors; and
- Piedmont remains committed to providing liquidity to its stockholders at the time and in the manner that are in the best interest of Piedmont and its stockholders.

Stockholders with questions about this tender offer or other matters should contact the Piedmont Investor Services Agent at 800-557-4830 or via e-mail at investor.services@PiedmontReit.com.

Disclosures

This press release may contain forward-looking statements about Piedmont. Such forward-looking statements can generally be identified by our use of forward-looking terminology such as “may,” “will,” “expect,” “intend,” “anticipate,” “estimate,” “believe,” or other similar words. Readers of this press release should be aware that there are various factors, many of which are beyond the control of Piedmont, that could cause actual results to differ materially from any forward-looking statements made in this press release, which include changes in general economic conditions, changes in real estate conditions, the potential need to fund capital expenditures out of operating cash flow, and lack of availability of financing or capital proceeds. Accordingly, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this correspondence. Piedmont does not make any representations or warranties (expressed or implied) about the accuracy of any such forward-looking statements. Piedmont urges you to read carefully Item 8 of the Schedule 14D-9 filed with the SEC for a discussion of additional risks that could cause actual results to differ from any forward-looking statements made in this correspondence.

The estimated net asset valuation determination of Piedmont’s common stock as of December 31, 2008 was based primarily on (1) the appraisal value of Piedmont’s real estate as of December 31, 2008 and (2) consideration of the value of Piedmont’s other assets and liabilities as of December 31, 2008, is only an estimate, and is based on a number of assumptions and estimates which may not be accurate or complete.
